

SERVICES

AESTHETIC, TRADITIONAL, COMPLEMENTARY MEDICINE AND OTHER PROCEDURES

1 SKIN CARE

2 PEELING CHEMICAL PEEL

3 ROLLER APP

4 MINIMALLY INVASIVE APPLICATIONS

5 BOTULINUM TOXIN APPLICATIONS

6 Filler applications

7 Platelet Rich Plasma applications (PRP)

8 MESOTHERAPY APPLICATIONS

9 LASER APPLICATIONS FOR HAIR REMOVAL FOR WOMEN AND MEN

10 Skin rejuvenation with laser

11 Non-ablative laser treatment of striae and scars

12 Laser cellulite and thinning treatment

13 Non-laser cellulite and thinning (with ultrasound, LPG endermology, radiofrequency, carboxytherapy and other similar devices)

14 Hair transplant

15 eyebrow transplant

16 beard transplant

17 eyelash transplant

18. Eyebrow Lift

19 Forehead, temple lift

20. Rhinoplasty

21. Lip Aesthetics

22. breast augmentation

23. Breast Reduction

24 nipple correction

- 25 each area liposuction
- 26 Female genital area vaginal tightening or enlargement
- 27. Male penis enlargement
- 28. Acupuncture
- 29 Kinesiotherapy
- 30. Osteopathy
- 31. Phytotherapy
- 32. Homeopathy
- 33 cupping treatment (cupping)
- 34 Hirudotherapy (application of leeches)
- 35. CHIROPRACTIC
- 36 OZONE APPLICATION

DIAGNOSIS AND TREATMENT PLANNING OF ORAL AND DENTAL TREATMENTS

- 1 ENDODONTICS
- 2 Hairdressing
- 3 Amputation
- 4 Root canal treatment
- 5 Teeth Whitening
- 6 PEDODONTICS
- 7 PROSTHETICS
- 8 Acrylic full dentures
- 9 Full dentures with metal bases
- 10 Implant Supported Removable Protheses
- 11 Rebazage (Pedestal renewal)
- 12 Gnatology, TMJ-muscle examination (Occlusion control)
- 13 Pinley and its varieties

- 14 One-piece cast crowns
- 15 Veneer crowns, ceramic
- 16 Pivo (Studded crown) or post-core
17. Maryland (Adheziv) bridge
- 18 Cleft palate prosthesis (Over-denture)
- 19 Preoperative appliance in newborn
- 20 Prosthetic treatment of complicated jaw defects
- 21 Laminate Veneer (Composite)
- 22 Zirconium crowns (each member)
- 23 Full dentures on implants
- 24 IMPLANTS
- 25 CAD-CAM Applications
- 26 Laminate Veneer Crown (acrylic)
- 27 Laminate Veneer Crown (acrylic)
- 28 Adhesive Cementation
- 29 Organ and Tissue Prostheses on Implants
- 30 Tooth extraction,
- 31 Complicated tooth extraction
- 32 Impacted tooth extraction, with mucous retention
- 33 Impacted tooth extraction, with bone retention
- 34 Operation Epulis
35. Sinus Lift
- 36 Fibroma Operation
- 37 Kapişon Isolation or Implant Top Opening
- 38 Surgical treatment of alveolitis
- 39 Cyst operation,
- 40 Osteomyelitis/Bronge/Osteoradionecrosis operation,

- 41 Odontogenic tumor operation
- 42 Temporomandibular joint mechanotherapy
- 43 Genioplasty
- 44 Segmental Osteotomy
- 45. Osteotomy
- 46 Corticotomy
- 47 TMJ Prosthesis fossa component application
- 48 Intraoral autogenous graft removal
- 49 Marshalization
- 50 PERIODONTOLOGY
- 51 Gingivectomy,
- 52 Flap operation,
- 53 Hemisection
- 54 Free gingival grafts
- 55 Coronal shift or sliding flap
- 56 Frenectomy
- 57 Tunnel operation,
- 58 Membrane application
- 59 Connective tissue grafts,
- 60 ORTHODONTICS
- 61 Determination of bone age
- Orthodontic treatment of 62 Angle class anomalies
- 63 Making an appliance involving two jaws (Activator)
- 64 Appliance repair
- 65 Rapid maxillary expansion apparatus
- 66. Lingual Arc
- 67. Obstructive Sleep Apnea Appliance

68 Interproximal reduction

GENERAL APPLICATIONS-INITIATIVES

- 1 Ketogenic diet therapy
- 2 Abscess or hematoma drainage, deep (Organ and deep soft tissue)
- 3 Biopsy
- 4 Electrocardiogram
- 5 Phototherapy, sessions
- 6 Cyst puncture
- 7 Removal of cyst or benign tumor
- 8 Paracentesis, therapeutic
- 9 Thoracentesis, therapeutic
- 10 Burn debridement,
- 11 Insertion and removal of IUD
- 12 CATHETER PROCEDURES

NEWBORN APPLICATIONS

- 1 Umbilical artery catheterization
- 2 Cauterization of umbilical granuloma
- 3 Partial exchange transfusion, neonatal
- 4 Subdural illumination

ALGOLOGY-PAIN TREATMENT APPLICATIONS

- 1 Atlantoaxial and atlantooccipital injection, pain treatment
- 2 Intra-articular injection, pain treatment
- 3 Prolotherapy
- 4 Somatic nerve blocks-diagnosis and treatment

- 5 Sympathetic Nerve Blocks-Diagnostic and therapeutic
- 6 Intraspinal Nerve Blocks diagnosis and treatment
- 7 Nerve Blocks-Destructive/ Neurolytic
- 8 Pituitary adenolysis
- 9 Neuroplasty-Adhesionolysis
- 10 Neuromodulation

DERMIS AND EPIDERMIS SURGERY

- 1 Dermabrasion,
- 2 Electrocauterization or cryotherapy of diffuse benign tumoral lesions
- 3 SKIN AND SUBCUTANEOUS
- 4 Split thickness skin graft

HEAD AND NECK, MUSCULOSKELETAL SYSTEM AND SOFT TISSUE SURGERY

- 1 Reduction of nasal fractures
- 2 Neck and Larynx
- 3 Laryngoscopy, flexible fiberoptic
- 4 Radiofrequency mass excision from the larynx
- 5 Cordotomy or cordectomy with radiofrequency in the larynx
- 6 Opening of tracheoesophageal fistula,
- 7 Paranasal Sinuses
- 8 Maxillary sinus puncture and lavage
- 9 Repair of floor of the mouth and tongue lacerations
- 10 Frenilum linguale plastic
- 11 Surgery for the glands

SURGERIES PERFORMED ON THE TRUNK

- 1 Excision of umbilical granuloma or polyp
- 2 Breast ductoscopy and ductal lavage

CARDIOVASCULAR SYSTEM, BLOOD AND LYMPHATIC SYSTEM SURGERY

- 1 Pericardiectomy with cardiopulmonary bypass
- 2 Hydatid excision of cardiac cyst with cardiopulmonary bypass
- 3 PACEMAKERS, AUTOMATIC CARDIOVERTER-DEFIBRILLATOR (AICD)
- 4 Surgical ablation of the arrhythmogenic focus or pathway, with cardiopulmonary bypass
- 5 Surgical ablation of the supraventricular arrhythmogenic focus or pathway, without cardiopulmonary bypass
- 6 HEART AND LARGE VESSEL INJURIES
- 7 Suture repair of aorta/large vessels with cardiopulmonary bypass
- 8 HEART VALVES-PULMONARY VALVE
- 9 Repair due to stenosis of the main pulmonary artery or its branches
- 10 Ventricular resection in infundibular stenosis
- 11 Outflow tract augmentation (Patch)
- 12 Pulmonary artery aneurysm
- 13 Valvotomy, pulmonary valve, closed (Transventricular)
- 14 PROCEDURES RELATED TO CORONARY ARTERY
- 14 Abnormal coronary artery, with graft
- 15 Abnormal coronary artery, ligation
- 16 Coronary angioplasty in combination with coronary bypass
- 17 Coronary arteriovenous or arteriocardial fistula repair
- 18 Myocardial resection (OR/ Ventricular aneurysmectomy)
- 19 SEPTAL DEFECTS
- 20 secundum atrial septal defect repair,
- 21 Atrial septal defect and sinus venosus repair, primary or with patch

- 22 Complete atrioventricular canal repair, with/without prosthetic valve
- 23 Closure of Ventricular Septal Defect (VSD), primary
- 24 Acyanotic VSD closure and pulmonary valvotomy/infund. Resection
- 25 VSD closure and removal of pulmonary artery band, with or without patching
- 26 Cor triatriatum
- 27 Sinus valsalva fistula repair with cardiopulmonary bypass
- 28 SHUNT OPERATIONS
- 29 Bidirectional cavopulmonary anastomosis
- 30 Aortic coarctation repair with cardiopulmonary bypass
- 31 Patent Ductus Arteriosus (PDA) division, with bypass
- 32 THORACIC AORTIC ANEURYSM REPAIR
- 33 PULMONARY ARTS
- 34 Pulmonary artery embolectomy with cardiopulmonary bypass
- 35 DIRECT ANEURYSM REPAIR OR EXCISION
- 36 LYMPH NODES AND LYMPHATIC DUCTS
- 37 RESPIRATORY SYSTEM SURGERY
- 38 LUNGS AND PLEURA
- 39 DIGESTIVE SYSTEM SURGERY
- 40 Radiofrequency ablation with laparoscopy or laparotomy in liver tumors
- 41 Intraoperative cholangiography
- 42 Colostomy revision
- 43 Perirectal injection, rectal prolapse
- 44 Local excision of and perineal benign lesions
- 45 BONE AND JOINT DISEASES SURGERY
- 46 SOFT TISSUE LACERATION SURGERY
- 47 HAND AND MICROSURGERY, EXTREMITY SURGERY
- 48 JOINT OPEN SURGERY

49 Percutaneous spine tumor ablation treatment

50 NERVOUS SYSTEM SURGERY

51 MASS AND VASCULAR SURGERIES

52 DISC SURGERY

53 Unilateral decompression in narrow spinal canal

EYE AND ADNEXAS

1 SURGICAL INTERVENTIONS OF THE PERIOcular REGION

2 Blepharoplasty, for each eyelid

3 Electrolysis surgery for dyticiasis

4 Surgery for cysts and chalazion on the valve

5 PROCEDURES RELATED TO TEAR DRAINAGE PATHWAYS

6 Insertion of the lacrimal plug

7 Punctum opening, dilatation, lavage

8 STRABISMUS AND PEDIATRIC OPHTHALMOLOGY

9 Tenotomy, myotomy, strabismus

10 CONJUNCTIVA-CORNEA-CONTACT LENS-ANTERIOR SEGMENT

11 RETINA-VITREUS

12 Photocoagulation,

13 Laser treatment of retinopathy of prematurity

14 Intravitreal puncture and/or injection

15 ORBITA-OCULAR ONCOLOGY

16 Sr90 Eye App

17 Myringotomy

18 Bladder puncture, suprapubic

19 FEMALE GENITAL AND REPRODUCTIVE SYSTEM APPLICATIONS

20 GYNECOLOGY

21 VAGINAL OPERATIONS

22 PROSTATE

23 Medical treatment of infected peripheral vasculitis

24 Cardioversion

25 ELECTROCARDIOGRAPHY (ECG)

26 ECHOCARDIOGRAPHY

27 UNDERWATER MEDICINE AND HYPERBARIC MEDICINE APPLICATIONS

28 Transcutaneous pO₂ (TcPO₂) measurement in hyperbaric environment

29 URINARY SYSTEM-NEPHROLOGY-DIALYSIS

30 HEMATOLOGY-ONCOLOGY-CHEMOTHERAPY

31. Bone Marrow Transplants

32 PODOLOGY APPLICATIONS

33 RADIATION ONCOLOGY

34 NUCLEAR MEDICINE IMAGING AND TREATMENT

35 Parathyroid scintigraphy, dual phase (tc-99m MIBI)

36 Tumor Imaging, whole body (Tl-201)

37 RADIOLOGICAL IMAGING AND TREATMENT

38 Bone densitometer

39 Ultrasonographic examinations

40 Color Doppler reviews

41 COMPUTED TOMOGRAPHY (CT)

42 MAGNETIC RESONANCE IMAGING (MRI)

43 LABORATORY PROCEDURES

44 BIOCHEMISTRY LABORATORY PROCEDURES

45 ALLERGY TESTS

46 AMINOACIDS AND DERIVATIVES

47 DYNAMIC TESTS

48 DRUG LEVELS

49 MONOCLONAL ANTIBODY (Flow cytometry)

50 ILLEGAL AND MISUSED SUBSTANCE ANALYSES

51 - MOLECULAR MICROBIOLOGY

52 CYTOGENETIC INVESTIGATIONS

53 MOLECULAR CYTOGENETIC INVESTIGATIONS

54 ONCOLOGICAL MOLECULAR EXAMINATIONS

55 PHYSIOLOGICAL MATERIALS

56 HISTOPATHOLOGICAL INVESTIGATIONS

57 ELECTRON MICROSCOPIC EXAMINATIONS (EM)

58 OCCUPATIONAL DISEASES LABORATORY EXAMINATIONS

59 TESTS FOR PARASITIC AND BACTERIAL ZOO NOTIC DISEASES

60 IMMUNOLOGICAL ANALYSES (Serum, CSF, Vitroous Aqua, etc.)

61 VIRAL TESTS

62 TUBERCULOSIS RESEARCH ANALYSES

63 TOXICOLOGICAL ANALYSES

64 Radiofrequency Thermocoagulation (RFT)/Cryoablation

HEAD AND NECK, MUSCULOSKELETAL SYSTEM AND SOFT TISSUE SURGERY

HEAD AND NECK SURGERY

1 'Blow-out' fracture, insertion of graft or biomaterial into the orbital base

2 Frontal bone fracture, open reduction and internal fixation

3 Eminectomy for Habitual Temporomandibular (TMJ) dislocations

4 Skull bone extensive tumor surgeries

5 Cranioplasty surgeries, foreign body implantation surgeries

6 Maxilla or mandible fracture, open reduction and internal fixation

- 7 Naso-ethmoid-orbital fracture, open reduction and internal fixation
- 8 Thyroglossal cyst or fistula excision
- 9 Mandible reconstruction with vascularized bone graft
- 10 Zygoma fracture, open reduction and internal fixation

NOSE

- 1 Total septal reconstruction with open rhinoplasty
- 2 Severe 'saddle nose' deformity repair involving bone and cartilage loss
- 3 Rhinophyma excision and skin grafting
- 4 Septoplasty
- 5 Septorhinoplasty

Neck and Larynx

- 1 Reconstruction of alar defects
- 2 Arytenoidectomy, endolaryngeal
- 3 Excision of branchial cleft cyst or sinus
- 4 External carotid artery ligation
- 5 Pharyngolaryngoesophagectomy
- 6 Laryngeal reinnervation, with neuromuscular flap
- 7 Laryngoplasty (Medialization, one side)
- 8 Thyroplasty

Paranasal Sinuses

- 1 CSF rhinorrhea surgery, external approach
- 2 Caldwell-Luc surgeries, two sides
- 3 Frontal sinus surgery, with osteoplastic flap, two sides
- 4 Surgery of the pterygopalatine fossa

Interventions for the Mouth, Lips, Tongue and Pharynx

- 1 Adenoidectomy
- 2 Resection of benign tumors in and around the mouth
- 3 Excision of malignant tumors in the mouth and application of local flaps
- 4 Excision and repair of the mucosa of the oral vestibule as a donor graft
- 5 Tongue lesion excision and repair with tongue flap
- 6 Resection of large tumors from the lip and repair with local flaps
- 7 Resection and repair of the wall of the pharynx, with myocutaneous flap
- 8 Hemiglossectomy
- 9 Uvulopalatopharyngoplasty with laser assist
- 10 Mentoplasty
- 11 Tumor excision and repair from the hard palate, by graft
- 12 Tonsillectomy
- 13 Uvulectomy

Surgery for Glandular Glands

- 1 Plastic repair of the salivary gland, sialodocoloplasty
- 2 Sialolithotomy, surgery
- 3 Parotidectomy, superficial
- 4 Excision of minor salivary gland tissues

THORAX SURGERIES PERFORMED ON THE TRUNK

- 1 Repair of late sternal dehiscence
- 2 Fasciotomy
- 3 Repair of lung hernia from the chest wall
- 4 Jeans fracture treatment,

- 5 Excision of mediastinal cyst or tumor
- 6 Sternal resection and reconstruction with prosthesis
- 7 Thoracoplasty with closure of bronchopleural fistula
- 8 Thoracic wall deformities, pectus excavatum, carinatum
- 9 Tumor excision, intrathoracic, extrapulmonary

INTERVENTIONS ON THE TRUNK AND ANTERIOR ABDOMINAL WALL

- 1 Abdominoplasty
- 2 Gastroschisis repair
- 3 Cloacal exstrophy repair
- 4 Omphalomesenteric duct patency repair
- 5 Primary repair of omphalocele
- 6 Rectus diastasis repair

BREAST

- 1 Mastectomy, radical
- 2 Correction of breast asymmetry
- 3 Breast reconstruction with double pedicle TRAM flap
- 4 Breast reconstruction, with Latissimus dorsi muscle skin flap and implant
- 5 Nipple and head reconstruction
- 6 Axillary sentinel lymph node excision with segmental mastectomy
- 7 Tuberous breast reconstruction

HERNIAS

- 1 Inguinal hernia repair with grafts, incarcerated or strangulated
- 2 Femoral hernia repair, bilateral, laparoscopic
- 3 Lumbar hernia repair

- 4 Repair of Spiegel hernia
- 5 Umbilical hernia repair, laparoscopic
- 6 Epigastric hernia repair, laparoscopic
- 7 Umbilical cord hernia repair
- 8 Ventral hernia repair

DIAPHRAGMATIC SURGERY

- 1 Diaphragmatic hernia repair by combined, thoracoabdominal approach
- 2 Diaphragmatic hernia repair by transthoracic approach
- 3 Resection and reconstruction of the diaphragm with prosthesis
- 4 Repair of Morgagni's hernia

PERITONEAL CAVITY

- 1 Torsion of the appendix epiploica
- 2 Laparostomy
- 3 Laparostomy, zipper-mesh/negative pressure method
- 4 Correction of the abdomen in the abdomen (evisceration-evaporation)
- 5 Omentectomy
- 6 Peritoneal or mesenteric tumor, cyst excision
- 7 Application of a pleuritoneal shunt
- 8 Hyperthermic intraperitoneal chemotherapy in combination with cytoreductive surgery
- 9 Excision of retroperitoneal cyst or tumor

CARDIOVASCULAR SYSTEM, BLOOD AND LYMPHATIC SYSTEM SURGERY

PERICARDIUM

- 1 Pericardiocentesis
- 2 Pericardial window opening or partial resection

- 3 Excision of pericardial cyst or tumor
- 4 PACEMAKERS, AUTOMATIC CARDIOVERTER-DEFIBRILLATOR (AICD)
- 5 HEART AND LARGE VESSEL INJURIES
- 6 HEART VALVES-AORTIC VALVE
- 7 HEART VALVES-MITRAL VALVE
- 8 HEART VALVES-TRICUSPID VALVE
- 9 HEART VALVES-PULMONARY VALVE
- 10 PROCEDURES RELATED TO CORONARY ARTERY
- 11 SEPTAL DEFECT
- 12 OTHER CONGENITAL CASES
- 13 SINUS VALSALVA
- 14 TOTAL ABNORMAL PULMONARY VENOUS DRAINAGE
- 15 SHUNT OPERATIONS
- 16 TRANSPOSITION OF THE GREAT ARTERIES
- 17 TRUNKUS ARTERIOSUS
- 18 AORTIC ANOMALIES
- 19 THORACIC AORTIC ANEURYSM REPAIR
- 20 PULMONARY ARTS
- 21 ARTERIAL EMBOLECTOMY OR THROMBEXOMY
- 22 VENOUS THROMBECTOMY
- 23 VENOUS RECONSTRUCTION
- 24 DIRECT ANEURYSM REPAIR OR EXCISION
- 25 ARTERIOVENOUS FISTULA REPAIR
- 26 VESSEL REPAIR OUTSIDE THE FISTULUS
- 27 THROMBOENDARERECTOMIA
- 28 BY-PASS GRAFT-VEIN
- 29 INTITU VEIN BY-PASS

30 BYPASS GRAFTS WITH THOSE OUTSIDE THE VEIN

31 EXPLATION

32 POSTOPERATIVE EXPLATION

33 INTRAVASCULAR CANNULATION AND SHUNT (SEPARATE PROCEDURE)

34 TRANSCATHETER THERAPY AND BIOPSY

35 LIGATION AND OTHER OPERATIONS

BLOOD AND LYMPHATIC SYSTEMS

1 Splenectomy, total, laparoscopic

LYMPH NODES AND LYMPHATIC DUCTS

1 Suture and/or ligation of the thoracic ductus by cervical approach

1 Deep cervical nodes with biopsy or excision of lymph nodes, scalene fat pad excision

INTERVENTIONS FOR THE LOWER EXTREMITY

1 Charles surgery for the treatment of lymphedema, in the entire thigh area

2 Transposition of the omentum for lymphedema

RESPIRATORY SYSTEM SURGERY

1 TRACHEA AND BRONCHI

2 Bronchoplasty, stenosis or tumor excision and anastomosis, graft repair with or without

3 With or without excision of tracheal stenosis and anastomosis, cervical, graft repair

4 Primary repair of tracheoesophageal fistula

5 Opening of tracheotomy, planned

LUNGS AND PLEURA

- 1 Hydatid cyst of the liver with lung, same session, with frenotomy
- 2 Empyema sac enucleation (Empyemectomy)
- 3 Catheter thoracostomy, closed system application
- 4 Hydatid cyst surgeries, lung, median sternotomy, both sides
- 5 Thoracotomy, bleeding control, and/or lung rupture repair
- 6 Videothoracoscopy, combined with excision of the bulla
- 7 Wedge resections, single or multiple

DIGESTIVE SYSTEM SURGERY

- 1 Hepatic artery ligation or catheterization
- 2 Drainage of numerous abscesses (Complicated) of the liver associated with the biliary system, with laparotomy
- 3 In cases of large vessel or biliary tract-related injuries of the liver, the primary suture is used in a large number
- 4 Lobectomy or hepatectomy, subtotal
- 5 Metastasectomy, each metastasis, laparoscopic
- 6 Portoenterostomy

BILIARY TRACT

- 1 Resection and reconstruction for extrahepatic biliary tract tumors
- 2 Choledochotomy – sphincterotomy or sphincteroplasty
- 3 Cholecystoenterostomy
- 4 Cholecystostomy

PANCREAS

- 1 Aberrant pancreatic excision
- 2 Islet cell transplantation
- 3 In acute pancreatitis, debridement, lavage and drainage
- 4 Total excision of pancreatic adenomas, laparoscopic
- 5 Pancreatectomy in pancreatic injuries, total
- 6 Pancreatectomy, combined with total duodenectomy, laparoscopic
- 7 Operation Whipple

ESOPHAGUS

- 1 Application of a peritoneovenous shunt in ascites
- 2 Distal esophageal resection and reconstruction with left thoracofrenotomy and intrathoracic anastomosis
- 3 Esophagectomy, laparoscopic
- 4 Coronary vein ligation and splenectomy in esophageal varices
- 5 Total pharyngolaryngo-esophagectomy and gastric or colon reconstruction
- 6 Transesophageal variceal ligation

STOMACH-DUODENUM

- 1 Reverse loop operations in dumping or diarrhea
- 2 Duodenoenterostomy
- 3 Local tumor excision from the duodenum
- 4 Fundoplication, laparoscopic
- 5 Hiatal hernia operation, laparoscopic
- 6 Gastrectomy radical, total
- 7 Excision of the diverticulum of the stomach

- 8 Wedge resection in the stomach
- 9 Benign tumor excision from the stomach
- 10 Obesity, by-pass
- 11 Obesity, sleeve
- 12 Obesity, banding
- 13 Duodenal switch-biliopancreatic diversion
- 14 Primary repair, truncal vagotomy and drainage in perforations due to peptic ulcer
- 15 Pyloromyotomy, in hypertrophic pyloric stenosis
- 16 Gastroduodenal artery ligation or arterial ligation in combination with duodenotomy
- 17 Selective vagotomy and anthrectomy

JEJUNUM OR ILEUM

- 1 Correction of congenital atresia, jejunal and ileal
- 2 Feeding jejunotomy
- 3 Biliary intestinal diversions
- 4 Small intestine transplantation
- 5 Series of transverse enteroplasty
- 6 Manual reduction in intussusception
- 7 Duplications of the jejunum or ileum, total excision
- 8 Stricturoplasty
- 9 Ladd band excision, in malrotations
- 10 Laparotomy and bridectomy in the brid ileus
- 11 Laparotomy, ileus
- 12 Correction of midgut volvulus (midgut)
- 13 Excision of Meckel's diverticulum

APPENDIX

1 Appendectomy

COLON

- 1 Hemicolectomy, right or left
- 2 Segmental column resection
- 3 Colectomy, subtotal and ileoproctostomy
- 4 Colectomy total and ileal pouch
- 5 Colectomy, total and ileoanal anastomosis, laparoscopic
- 6 Colectomy, total and terminal ileostomy, laparoscopic
- 7 Total excision of colon duplication
- 8 Colon Pull-through, by abdominoperineal or perineal approach
- 9 Colon detorsion and pexy operations
- 10 Opening the colostomy
- 11 Closure of the colostomy
- 12 Hartmann closure
- 13 Sigmoid volvulus reduction

RECTUM

- 1 Abdominoperineal resection, laparoscopic
- 2 Excision of rectal polyps, anally
- 3 Rectal Myectomy- Hirschsprung Hst
- 4 Sacroperineal repair in rectal prolapse
- 5 Sorclage or Tiersch surgery in rectal prolapse
- 6 Progressive flap in stenosis

ANUS

- 1 Anoplasty
- 2 Fissurectomy
- 3 Hemorrhoidectomy
- 4 Hemorrhoidectomy, sphincterotomy
- 5 Hemorrhoidopexy
- 6 Ablation or embolization of hemorrhoids (RF/laser)
- 7 Muscle transposition in the treatment of incontinence
- 8 Perianal abscess drainage
- 9 Perianal fistulotomy or fistulectomy
- 10 Application of seton in fistula
- 11 Progressive flap in fistula
- 12 Excision of the perianal sinus
13. Perineoplasty
- 14 Sphincteroplasty in complete perineal tears or incontinence
- 15 Sphincterotomy
- 16 Removing a foreign body from the anus by sphincterotomy
- 17 transposition operation
- 18 Pilonidal sinus excision

BONE AND JOINT DISEASES SURGERY

- 1 Large Bones: Scapula, humerus, radius, ulna, pelvis, femur, tibia
- 2 Middle Bones: Tarsal, carpal, clavicle, patella, fibula, coccyx
- 3 Small Bones: Metatarsus, metacarpal, and finger bones
- 4 Major Joints: Shoulder, elbow, wrist, hip, symphysis, pubis, sacroiliac, knee, ankle
- 5 Middle Joints: Intertarsal, intercarpal, acromioclavicular, tibifibular syndesmosis, distal radioulnar, proximal radioulnar, sternoclavicular, costasternal
- 6 Small Joints: Metatarsophalangeal, Interphalangeal

- 7 CLOSED REDUCTION OF DISLOCATIONS
- 8 CLOSED REDUCTION OF FRACTURES
- 9 JOINT MOBILIZATION UNDER ANESTHESIA
- 10 SURGICAL TREATMENT OF FRACTURES
- 11 SURGICAL TREATMENT OF DISLOCATIONS
- 12 AMPPUTATION, DISARTICULATION
- 13 OSTEOTOMIES
- 14 IMPLANT REMOVAL
- 15 SOFT TISSUE LACERATION SURGERY
- 16 HAND AND MICROSURGERY, EXTREMITY SURGERY
- 17 CONGENITAL ANOMALIES
- 18 ARTHROBLASTICS
- 19 ARTHRODESIS
- 20 OSTEOMYELITIS
- 21 ARTHROSCOPY
- 22 HIP ARTHROSCOPY
23. Knee Arthroscopy
- 24 ANKLE ARTHROSCOPY
25. Shoulder Arthroscopy
- 26 Elbow and wrist arthroscopy
- 27 JOINT OPEN SURGERY
- 28 RECONSTRUCTION IN RECURRENT DISLOCATIONS
- 29 PAEDIATRIC ORTHOPEDICS
- 30 PELVIS AND HIP JOINT
- 31 SPINE SURGERY
- 32 Vertebral Infections
33. Osteotomy

34 Treatment of Spinal Fractures and Dislocations

35 Arthrodesis

36 Posterior posterolateral or lateral transverse approach, cervical

37 Anterior or anterolateral approach, thoracic-lumbar-sacral

38 Posterior-posterolateral or lateral transverse approach, thoracic, lumbar

39 SPINAL INSTRUMENTATION

40 Kyphectomy

41 Spondylolysis pars fracture repair

42 Sacroectomy, partial

43 Sacroectomy, total

44 Vertebroplasty, single level

45. Kyphoplasty

46 Facet joint blockade

47 Surgical reduction of spondylolisthesis

48 EXTERNAL FIXATOR TREATMENTS

49 CORRECTION OF DEFORMITY BY HEMICALLOTASIS-CALLIASIS

50 OPENING JOINT CONTRACTURE WITH EXTERNAL FIXATOR

51 BONE LENGTHENING/ DEFORMITY CORRECTION SURGERY

52 ORTHOPEDIC ONCOLOGY

53 RECONSTRUCTIONS

54 Prosthetic Reconstructions

NERVOUS SYSTEM SURGERY

1 SURGERY FOR ELECTROPHYSIOLOGICAL TESTS

2 Surgical intervention for deep electrode placement for long-term video EEG

3 Cortical stimulation

4 Electrocorticography

5 MID-SKULL PIT APPROACHES

6 Vestibular neurectomy, transcanal

7 MAI decompression

8 Repair of CSF fistulas

9 Temporal bone tumor excision

10 Acoustic tumor excision

11 RETRO LABYRINTH AND RETROSYMBIROID APPROACHES

12 Vestibular neurectomy, retrosigmoid-retrolabyrinth

13 STEREOTACTIC AND FUNCTIONAL NEUROSURGICAL SURGERIES

14 CRANIAL SURGERIES

15 HEAD TRAUMA SURGERIES

16 MASS AND VASCULAR SURGERIES

17 EPILEPSY SURGERIES

18 CONGENITAL SPINAL SURGERY

19 INTRADURAL INTRAMEDULLARY SPINAL SURGERY

20 DISC SURGERY

21 EXCISION AND DECOMPRESSION

22 PROCEDURES FOR THE TREATMENT OF FACIAL PARALYSIS

23 UPPER EXTREMITIES

24 PERIPHERAL NERVE SURGERY

25 MICROSURGERY

EYE AND ADNEXAS

1 SURGICAL INTERVENTIONS OF THE PERIOcular REGION

2 PROCEDURES RELATED TO TEAR DRAINAGE TRACTS

3 STRABISMUS AND PEDIATRIC OPHTHALMOLOGY

4 CONJUNCTIVA-CORNEA-CONTACT LENS-ANTERIOR SEGMENT

5 REFRACTORY SURGERY

6 PROCEDURES RELATED TO THE IRIS AND LENS

7 Phacoemulsification and intraocular lens implantation

8 GLAUCOMA

9 RETINA-VITREUS

10 ORBITA-OCULAR ONCOLOGY

SURGERY OF THE EAR AND EAR AREA

1 Suturing the amputated auricle as a composite graft

2 Auricle excision, simple

3 Auricle excision, total

4 Simple mastoidectomy

5 Canal Wall Down tympanoplasty

6 External auditory canal atresia

7 External auditory canal, excision of exocytosis

8 External auditory canal, radical excision of malignant parts

9 External auditory canal, foreign body removal, surgery

10 Exploratory tympanotomy

11 Endolymphatic sac operation, with a shunt

12 Endolymphatic sac operation, without a shunt

13 Facial nerve decompression

14 Facial nerve suture

15 Glomus tumor excision with extended external approach

16 Glomus tumor excision, by transmastoid approach

17 Glomus tumor excision, by transmeatal approach

18 Repair of the two-lobed earlobe

19 Surgery of the infratemporal fossa type A

- 20 Surgery of the infratemporal fossa type B
- 21 Surgery of the infratemporal fossa type C
- 22 Bone conduction hearing decompression
- 23 Prominent ear repair, one side
- 24 Cochlear implant placement
- 25 Implantable hearing aids in the middle ear
- 26 Implantable hearing aid placement
- 27 Auditory brainstem implant placement
- 28 Cochlear implant revision
- 29 Bone implantable hearing aid revision
- 30 Headband application
- 31 Bilateral cochlear implant placement
- 32 Cryptotia correction
- 33 Auricle replantation
- 34 Full-thickness resection and primary suture for tumors located in the auricle
- 35 Ear reconstruction, one-stage
- 36 Labyrinthectomy (TALC operation)
- 37 Labyrinthectomy, with mastoidectomy
- 38 Labyrinthectomy, transcanal
- 39 Correction of macrotia
- 40 Meatoplasty in stenoses
- 41 Closure of the external auditory canal
- 42 Lobule transposition for microtia repair
- 43 Creation of posterior sulcus for microtia repair
- 44 Preparation-placement of cartilage roof for microtia repair
45. Myringoplasty
- 46 Petrous apex resection and radical mastoidectomy

47 Radical or multiple modified radical mastoidectomy

48 Stapedectomy

49 Temporal bone resection

50 Tympanoplasty

51 Ventilation tube application, one side

ENDOCRINE SYSTEM SURGERY

1 Thymectomy, simple

2 Thymectomy, maximal

3 Substernal thyroidectomy, intrathoracic

4 Thyroid biopsy, surgery

5 Thyroidectomy subtotal, on one side

6 Thyroidectomy subtotal, both sides

7 Thyroidectomy total, unilateral

8 Thyroidectomy total, both sides

9 Thyroidectomy (One-sided total and contralateral subtotal)

10 Thyroidectomy (complementary, total)

11 Recurrent thyroidectomy

12 Parathyroid muscle implantation, autograft

13 Parathyroidectomy for adenoma

14 For parathyroidectomy, hyperplasia, or cancer

15 Surrenalectomy transperitoneal, unilateral

16 Surrenalectomy transperitoneal, unilateral, laparoscopic

17 Surrenalectomy lumbar, extraperitoneal, unilateral

18 Neuroblastoma excision

URINARY SYSTEM SURGERY

- 1 kidney
- 2 Horseshoe kidney revision, isthmectomy
- 3 Kidney biopsy, open surgery
- 4 Kidney cyst resection
- 5 Kidney transplantation
- 6 Percutaneous resection of kidney tumor
- 7 Endopyelotomy
- 8 ESWL session 1
- 9 ESWL session 2
- 10 ESWL session 3
- 11 Laparoscopic nephrectomy
- 12 Nephrectomy, simple
- 13 Nephrectomy, living donor
- 14 Nephrectomy, partial
- 15 Nephrectomy, radical
- 16 Nephrectomy, subcapsular
- 17 Nephrocutaneous fistula repair
- 18 Nephrolithotomy
- 19 Nephrolithotomy, anatomic
- 20 Nephrolithotomy, percutaneous
- 21 Nephrectomy
- 22 Nephropylolithotomy
- 23 Closure of nephrostomy
- 24 Nephrostomy, open surgery
- 25 Nephroureterectomy
- 26 Nephroureterectomy and partial cystectomy

- 27 Nephrovesical stent placement, subcutaneous
- 28 Perirenal abscess drainage, surgery
- 29 Pyelolithotomy
- 30 Pyeloplasty
- 31 Pyelostomy
- 32 Renal artery plastic operation
- 33 Wilm's tumor removal
- 34 Renal cyst excision, laparoscopic
- 35 Renal rupture repair
- 36 Retrograde pyelography, including endoscopy
- 37 Repair in traumatic kidney rupture

URETER

- 1 Endoscopic ureteral stone treatment
- 2 Retrograde ureteral catheterization
- 3 Transureteroureterostomy
- 4 Uracus cyst and fistula excision
- 5 Ureterectomy and anastomosis in ureteral tumor
- 6 Ureteral J stent placement
- 7 Ureteral balloon dilatation
- 8 Placement of a permanent ureteral stent other than Double J
- 9 Ureteral stent removal
- 10 Ureteral substitutions (Ileal ureter)
- 11 Insertion of a basket into the ureter, transureterolithotomy
- 12 Ureterectomy
- 13 Ureterocalcial anastomosis
- 14 Ureterocutaneostomy

15 Ureterocutaneostomy closure

16 Ureterolithotomy

17 Ureterolysis

18 Ureteroneocystostomy, both sides

19 Ureteroneocystostomy, one side

20. Ureteroplasty

21 Ureteroplasty in the megaureter

22 Ureterorenoscopy, biopsy

23 Ureterorenoscopy, diagnostic

24 Ureterorenoscopy, tumor treatment

25 Ureterocele excision or incision

26 Ureterocele, open excisional therapy

27 Ureterocele, endoscopic treatment

28 Ureterosigmoidostomy

29 Ureterostomy

30 Ureteroureterostomy

31 Urinary diversion, ileal loop

32 Urinary diversion, continence

33 Urinary diversion, ureterocutaneous anastomosis

34 Urinary diversion, ureterosigmoidostomy

BLADDER

1 Insertion of an artificial sphincter

2 Removal of the artificial sphincter

3 Augmentation cystoplasty

- 4 Exstrophy vesicalis, bladder neck repair
- 5 Exstrophy vesicalis, primary repair
- 6 Exstrophy vesicalis, urethroplasty
- 7 Intestinal bladder substitutions
- 8 Diverticulectomy
- 9 Bladder suspension, laparoscopic
- 10 Bladder neck resection
- 11 Injection of incontinence into the bladder neck
- 12 Excision of bladder diverticulum
- 13 Bladder perforation repair
- 14 Bladder tumor (TUR) (< 3 cm)
- 15 Bladder tumor (TUR) (\geq 3 cm)
- 16 Bladder tumor (TUR) biopsy
- 17 Bladder TUR (Non-tumoral, reTUR)
- 18 Bladder tumor resection, surgery
- 19 Laser treatment of bladder tumor
- 20 Fulguration in precancerous lesions of the bladder
- 21 Mitrofanof or Monti procedure
- 22 Sacral implant placement
- 23 Cystectomy, simple
- 24 Cystectomy, partial
- 25 Cystectomy, total
- 26 Cystolithotomy, open surgery
- 27 Cystolithotomy, endoscopic
- 28 Cystoscopy and "punch" biopsy of the bladder
- 29 Cystoscopy, diagnostic
- 30 Cystomy, open

- 31 Cystomy, percutaneous
- 32 Cystourethroscopy
- 33 Repair in traumatic bladder rupture
- 34. Vesicoplasty
- 35 Vesichorectal fistula repair
- 36 Vesicocervical fistula repair
- 37 Vesicovaginal fistula repair
- 38 Vesicostomy
- 39 Vesicotomy closure
- 40 Subureteric injection in vesicoureteral reflux, two sides
- 41 Subureteric injection in vesicoureteral reflux, unilateral

URETHRA

- 1 Epispadias repair
- 2 Hypospadias repair, distal
- 3 Hypospadias repair, penoscrotal
- 4 Hypospadias repair, perineal
- 5 Internal urethrotomy
- 6 Posterior urethral valve resection
- 7 Primary repair in distal urethral injuries
- 8 Rail-road catheterization (Traumatic urethral rupture)
- 9 Retropubic urethropexy and sling surgeries
- 10 Transpubic repair in urethral injuries
- 11 Dilation of the urethra
- 12 Removal of stones or foreign body from the urethra or bladder
- 13 Urethral balloon dilatation and/or stent placement
- 14 Urethral diverticulectomy

- 15 Urethral fistula repair
- 16 Urethral instillation
- 17 Urethral cord repair
- 18 Urethrectomy
- 19 Urethrolithotomy, open
- 20 Urethrolysis
21. Urethroplasty
- 22 Urethroplasty with flap
- 23 Urethroplasty, transpubic
- 24 Urethroplasty, hypospadias-non-epispadias
- 25 Urethrostomy
- 26 Uretrovaginal fistula operation

FEMALE GENITAL AND REPRODUCTIVE SYSTEM APPLICATIONS

- 1 Vaginal birth with intervention
- 2 Interventional vaginal birth (First birth)
- 3 Vaginal birth with intervention (Multiple pregnancy)
- 4 Vaginal first birth with intervention (Multiple pregnancy)
- 5 Normal vaginal delivery
- 6 Normal vaginal birth (First birth)
- 7 Vaginal delivery with epidural anesthesia
- 8 Vaginal birth with epidural anesthesia (Multiple pregnancy)
- 9 Vaginal birth in water
- 10 Normal vaginal birth (Multiple pregnancy)
- 11 Normal vaginal first birth (Multiple pregnancy)
- 12 Cesarean section (Multiple pregnancy)
- 13 Cesarean section

INTERVENTIONS FOR DIAGNOSIS AND TREATMENT DURING PREGNANCY

- 1 Amnioinfusion
- 2 Amniocentesis
- 3 Fetal blood sample (Cordocentesis)
- 4 Fetocide
- 5 Intrauterine surgery
- 6 Spina bifida repair with fetal surgery
- 7 Intrauterine transfusion
- 8 Removal of chorionic villi
- 9 McDonald-Schirodkar

GYNAECOLOGY

- 1 Bartholin cyst removal
- 2 Endometrial biopsy
- 3 Opening the imperforated hymen,
- 4 Colpotomy
- 5 Opening of labial fusion
- 6 Bumm curettage
- 7 Cervical biopsy
- 8 Cervical biopsy and diagnostic curettage
- 9 Cervical cauterization
- 10 Removal of cervical polyps
- 11 Cervical polypectomy and diagnostic curettage
- 12 Therapeutic curettage, for diagnostic and therapeutic purposes

VAGINAL OPERATIONS

- 1 Operation for sphincter insufficiency
- 2 Cauterization of Bartholin's cyst with silver nitrate
- 3 Gartner or inclusion cyst excision
- 4 Colposcopy
- 5 Cauterization of condyloma
- 6 Conization operation
- 7 LEEP operation
- 8 Manchester-Fothergill operation
- 9 Vaginal drainage of a pelvic abscess
- 10 Perinoplasty
- 11 Rectocele
- 12 Removal of cervical stump
- 13 Cervicosacropepy
- 14 Cytectocele operation
- 15 Cystocele operation
- 16 Skinning vulvectomy
- 17 Operation Stumdorf
- 18 Medically induced evacuation (10 weeks or more)
- 19 Dilation and abortion (less than 10 weeks)
- 20 Urethral caruncle operation
- 21 Urethral cyst operation
- 22 Enlargement of vaginal stenosis, surgery
- 23 Removal of vaginal fibroids
- 24 Vaginal hysterectomy
- 25 Vaginal hysterectomy rectocele operation
- 26 Vaginal hysterectomy and cystocele operation
- 27 Vaginal hysterectomy and salpingoophorectomy (Single or both sides)

- 28 Vaginal hysterectomy and cystorectocele operation
- 29 Vaginal enterocele repair
- 30. Vaginectomy
- 31. Clitoroplasty
- 32. Labiaplasty
- 33 Vagina reconstruction with skin grafting
- 34 Vagina reconstruction with skin flaps
- 35 Vagina reconstruction with intestinal segment transfer

ABDOMINAL OPERATIONS

- 1 Baldy Webster suspension
- 2 Ectopic pregnancy operation
- 3 Operation for endometrioma and endometriosis
- 4 Hysterectomy, abdominal (TAH)
- 5 Salpingo-oophorectomy in combination with hysterectomy, abdominal (TAH+USO or TAH+BSO)
- 6 Tubal ligation
- 7 Myomectomy
- 8 Oophorectomy (Single or both sides)
- 9 Over transposition
- 10 Ovarian detorsion
- 11 Ovary or paraovarian cyst excision
- 12 Over Wedge resection (One side or both sides)
- 13 Postpartum tubal ligation
- 14 Salpingo-oophorectomy (One side or both sides)
- 15 Salpingectomy (One side or both sides)
- 16 Sterilization operations

- 17 Subtotal hysterectomy
- 18 Subtotal hysterectomy and salpingoophorectomy (One side or both sides)
- 19 Repair of uterine perforation / rupture
- 20 Shortening of the uterosacral ligament

SPECIAL OPERATIONS

- 1 Abdominal and combined entorocele repair
- 2 Burch operation
- 3 Debulking surgery
- 4 Double needle operation
- 5 Hypogastric artery ligation
- 6 Kuldoplasty
- 7 Laparoscopic hysterectomy
- 8 Lash operation
- 9 Operation Le Forte (Colpocleisis)
- 10 Marshall- Marchetti Kranz operation
- 11 Paravaginal repair
- 12 Pereyra operation
- 13 Periaortic pelvic lymph dissection
- 14 Postoperative cuff prolapse repair (Colpoplexy with abdominal facial suspension)
- 15 Vaginal sacrospinous ligamentopexy
- 16 Presacral neurectomy
- 17 Promontofixation
- 18 Radical anterior resection
- 19 Radical posterior resection
20. Radical vulvectomy
- 21 Raz operation

- 22 Rectovaginal fistula
- 23 Richardson composite operation
- 24 Sacrocolpopexy
- 25 Shauta Emerichh operation
- 26 Sling operations (including IVS-TVT)
- 27 Total pelvic resection
- 28 Transobturator tape application
- 29. Vulvectomy
- 30. Wertheim surgery (Radical hysterectomy)
- 31 Radical parametrectomy
- 32 William Dolores suspension

INFERTILITY SURGERIES

- 1 Hysteroscopy, diagnostics
- 2 Hysteroscopy, operative
- 3 Laparoscopy, diagnostic
- 4 Laparoscopic surgery in infertility
- 5 Metroplasty, each
- Myomectomy with 6 microsurgeries, each
- 7 Tubabaplasty
- 8 Vaginal reconstruction (Mc Indoe)

INVITRO FERTILIZATION PROCEDURES

- 1 In-vitro fertilization (IVF) for the birth of a healthy child
- 2 In-vitro fertilization (IVF) for the birth of a stem cell donor sibling
- 3 In-vitro fertilization (IVF)
- 4 Transfer of the embryo undergoing freezing process

MALE GENITAL SYSTEM SURGERY

PENIS

- 1 Removal of the exposed penile implant
- 2 Covering the exposed penile implant
- 3 Opening phimosis
- 4 Circumcision
- 5 Drainage of the corpus cavernosum (Priapismus)
- 6 Meatotomy
- 7 Penile reconstruction and penile implant placement with microsurgery
- 8 Paraphimosis reduction
- 9 Penectomy, partial
- 10 Penile dorsal vein ligation
- 11 Penile fracture repair
- 12 Penile plication
- 13 Removal of the multi-part penile prosthesis
- 14 Removal of a one-piece penile prosthesis
- 15 Multi-part penile prosthesis implantation
- 16 One-piece penile prosthesis implantation
- 17 Penile revascularization
- 18 Penile reconstruction, with a technique that requires microsurgery
- 19 Penile reconstruction with regional flap
- 20 Penile replantation
- 21 Penis lengthening
- 22 Peyronie's plaque excision
- 23 Peyronie's plaque excision, with graft
24. Radical penectomy

- 25 Penile reconstruction with regional flap and implantation of penile prosthesis
- 26 Sapheno-cavernosal shunt (Priapismus)
- 27 Spongio-cavernosal shunt (Priapismus)

PROSTATE

- 1 Perineal drainage of prostate abscess
- 2 Prostate needle biopsy, multiple
- 3 Prostate needle biopsy, ultrasound-guided, multiple
- 4 Laparoscopic lymphadenectomy in prostate cancer, two sides
- 5 Laser treatment of the prostate
- 6 TUNA to the prostate
- 7 Prostatectomy, unipolar TUR
- 8 Prostatectomy, bipolar TUR
- 9 Prostatectomy, open
- 10 Prostatectomy, radical
- 11 Transurethral prostate incision
- 12 Intraprostatic stent placement

TESTIS-EPIDIDYM-CROTUM

- 1 Ejaculatory duct resection
- 2 Excision of the cyst of the epididymis
- 3 Epididymectomy
- 4 Debridement for Fournier's gangrene
- 5 Funicular cyst excision
- 6 Hematocelectomy
- 7 Hemiscrotectomy
- 8 Hydrocelectomy, one side

- 9 Hydrocelectomy and hernioplasty
- 10 Inguinal exploration
- 11 Inguinal orchiectomy, unilateral
- 12 Undescended testicle surgery
- 13 Undescended testicle surgery on two sides, hernia repair on both sides
- 14 Undescended testicle surgery on two sides, hernia repair on one side
- 15 Undescended testicle surgery on one side, hernia repair on both sides
- 16 Cord excision
- 17 Laparoscopic ectopic testis investigation
- 18 Laparoscopic orchiopexy
- 19 Microsurgical epididymal sperm aspiration
- 20 Percutaneous epididymal sperm aspiration
- 21 Cauterization of papilloma from the anterior urethra
- 22 Seminal vesiculectomy
- 23 Scrotal orchiectomy, one side
- 24 Scrotal orchiectomy, both sides
- 25 Spermatoclectomy
- 26 Testicular fixation, both sides
- 27 Testicular fixation, one side
- 28 Testicular sperm extraction (TESE)
- 29 Testicular biopsies, open (Single, bilateral)
- 30 Testicular detorsion, open
- 31 Testicular detorsion, closed
- 32 Placement of testicular prosthesis
- 33 Varicocelectomy, unilateral
- 34 Varicocelectomy, both sides
- 35 Vasectomy

36 Vasoepididymomy

37 Vasovasostomy

PACEMAKER AND ICD

DIAGNOSTIC CARDIAC CATHETERIZATION

Diagnostic catheterization in congenital heart disease (CHD)

THERAPEUTIC CARDIAC CATHETERIZATION

Therapeutic interventional catheterization in congenital heart diseases (CHD)

ELECTROPHYSIOLOGICAL STUDY (EFS) AND ABLATION

DIGESTIVE SYSTEM

1 Balloon dilatation in achalasia

2 Heater probe or injection therapy or clip application in lower and/or upper GI bleeding

3 Endoscopic biliary endoprosthesis placement

4 Endoscopic percutaneous gastrostomy

5 Endoscopic retrograde cholangiopancreatography

6 Gastroscopic polypectomy

7 Endoscopic resection of the mucosa

8 Balloon or bougie dilatation in gastrointestinal tract strictures

UNDERWATER MEDICINE AND HYPERBARIC MEDICINE APPLICATIONS

1 Recompression therapy, Type I Decompression Sickness

2 Recompression therapy, Type II Decompression Sickness, first session

3 Recompression therapy, Type I Decompression Sickness with mixed gas

4 Recompression therapy, Type II Decompression Sickness with mixed gas

5 Recompression therapy, arterial gas embolism

6 Hyperbaric oxygen therapy, 1-2 ATA sessions

7 Hyperbaric oxygen therapy, 2-3 ATA sessions

9 Hyperbaric oxygen therapy for carbon monoxide poisoning, first session

Intraoperative neuromonitoring

URINARY SYSTEM-NEPHROLOGY-DIALYSIS

1 Emergency hemodialysis

2 Hemodialysis

3 Insertion of a catheter for hemodialysis

4 Insertion of a permanent tunneled catheter

5 Home hemodialysis

HEMATOLOGY-ONCOLOGY-CHEMOTHERAPY

1 Bone Marrow Transplants

2 Supply of bone marrow/cord blood from domestic bone marrow banks

BONE MARROW TRANSPLANT

1 Hematopoietic cell transplantation, allogeneic (from sibling or relative)

2 Hematopoietic cell transplantation, allogeneic (from non-relative)

3 Haploidentical transplant, allogeneic (at least 2 HLA antigen incompatible transplants)

4 Cord blood transfusion, allogeneic

5 Cord blood transfusion, autologous

6 Hematopoietic cell transplantation, autologous

STEREOTACTIC RADIOSURGERY

1 Stereotactic Radiotherapy/Radiosurgery Procedures with Cobalt-60 Source Teletherapy Devices

2 Stereotactic Radiotherapy/Radiosurgery Procedures with Robotic Linear Accelerator

PERIPHERAL ANGIOGRAPHY

- 1 Normal angiographic examinations
- 2 Aorta-femoro-popliteal arteriography
- 3 Aortography, thoracic
- 4 Aortography, abdominal
- 5 Coliac angiography and arterial portography
- 6 Selective renal angiography, two sides
- 7 Inferior mesenteric angiography
- 8 Pelvic arteriography
- 9 Pulmonary angiography
- 10 Superior mesenteric angiography
- 11 Arteriography of the upper extremities, one side
- 12 Femoro-popliteal arteriography, one side
- 13 Selective renal angiography, one side
- 14 Translumbal aorto-femoro-popliteal arteriography
- 15 Transplant renal angiography
- 16 Neuroradiological angiographic examinations
17. Amytal Test (VADA)
- 18 Arch aortography
- 19 Selective carotid angiography, two sides
- 20 4 System Selective Cerebral Angiography
- 21 Orbital phlebography
- 22 Petrosal sinus blood sampling
- 23 Selective vertebral angiography, two sides

- 24 Spinal angiographic scan
- 25 Selective carotid angiography, one side
- 26 Venographic examinations
- 27 Dialysis fistulogram
- 28 Hepatic venography and wedge venography
- 29 Adrenal venography, both sides
- 30 Gonadal venography, both sides
- 31 Inferior or superior vena cavagraphy
- 32 Portal venous blood sampling
- 33 Renal venography and renal vein blood samples
- 34 Contrast-enhanced evaluation of central venous catheter skate
- 35 Splenoportography
- 36 Adrenal venography, one side
- 37 Gonadal venography, one side
- 38 Venography, lower limbs, one side
- 39 Venography, upper limb, one side
- 40 Nonvascular interventional radiological therapies
- 41 Percutaneous ablation treatment

ORGAN TRANSPLANTATION

- 1 Limb transplant (Single arm or one leg)
- 2 Face Transplant
- 3 Cadaver donor procurement
- 4 renal transplantation
- 5 Pulmonary transplantation
- 6 Lungs
- 7 Small Intestine

8 Heart

9 Heart Valve

10 Liver

11 Pancreas

12 Corneal transplantation

13 Stem cell transplant

14 Muscle and bone marrow tissues
